Learning  
Programme

Leonardo da Vinci partnership project “Innovative methods and strategies in Vocational Education and Training for efficient use of resources and environmental protection” (INOVES )

Attività di progetto del Dipartimento di Biologia, Università degli Studi di Firenze

REPORT ABOUT THE FINAL EVALUATION QUESTIONNAIRE

1. TOTAL NUMBER of people that you applied questionnaires: 26 people
  
2. Age:
  - 18 people 20-35 years old
  - 6 people 36-55 years old
  - 2 people 56-75 years old
  
3. Sex:
  - 12 females
  - 14 males
  
4. Did you participated into this project as:
  - a. 18 learners
  - b. 8 staff members
  
5. Do you consider that your participation into this project was useful for?
  - a) making an efficient use of resources: 26 answers
  - b) working as a professional trainer for teach learners about efficient use of resources and environmental protection: 10 answers
  - c) learning ways of implementation of an European Project: 15 answers
  - d) knowing different systems of efficient use of resources into other European countries: 22 answers
  - e) learning from the best practices into this field in other European countries and applying into your own country/ institution: 8 answers

- f) knowing and implementing the European values: 4 answers
- g) knowing the other European countries' culture: 2 answers

6. Which products among those realised into the project do you consider more useful for you and your institution?

- a) The handbook of the project: 12 answers
- b) The project site: 21 answers
- c) The studies realised about the strategies for efficient use of resources: 20 answers
- d) The studies realised about the needs of target groups: 8 answers (*COMMENT: all the 8 answer were from staff members; any learners choose this option*)
- e) The training courses realised for the learners in order for them to know better how to use the resources in an efficient modality: 0 answers (*COMMENT: we talked about it, many people considered this product really useful, but the question asked specifically for our staff and institute, so no one chose this option because we didn't have training courses in Florence*)
- f) The contact you had with European partners from the project: 2 answers (*COMMENT: both from staff members*)
- g) The guide with strategies for efficient use of resources: 12 answers

7. During the project development the most important help you received was from?

- a) the European coordinator of the project: 0 answers
- b) your National Agency: 0 answers
- c) the national coordinator of the project: 21 answers
- e) the European partners into the project: 1 answer
- f) the members of the national project team: 4 answers
- c) other factors (*describe them*) ; 0 answers

8. Do you consider the abilities, information and the skills you accumulate during the project development are sufficient for knowing how to protect the environment and to use the resources in an efficient manner?

- a) YES: 17 answers
- b) NO: 9 answers

If the answer is NO - which are in your opinion other topics or other activities which should still be realised for a better knowledge about an efficient use of resources?

*(COMMENT: all the questionnaires reporting a "NO" answer get comments about the goodness of the project development, that fitted its aims. They individuated the motivation of "NO" answer with the impossibility to cover the huge knowledge and competence about the environmental protection, that can't be covered by only one project.*

9. In your opinion what is the European added value for INOVES project?  
(No answer for this question)

10) Do you want to participate in the future in other European projects? Why?

YES: 26 answers

Reported motivations: research in environmental protection (18 people); exchange of competences (16 people), interchange of best practices (12 people), optimize competences to improve project results (9 people), acquisition of organization skills (8 people), improving of the "European feeling" among countries (2 people)
